CONTENTS

No. 1 MAY, 1942

CHARLES K. WEICHERT. The experimental control of prolonged pregnancy in the lactating rat by means of estrogen. Two plates (sixteen figures)....	1
R. R. GREENE, M. W. BURRILL AND A. C. IVY. The effects of postnatal androgenic treatment in the female rat. Two plates (seven figures).....	19
SUE BROWDER. Factors influencing lung lobation in the mouse. I. Genetic factors: A preliminary report. Nine figures	31
LINDSAY E. BEATON AND BARRY J. ANSON. Variations in the origin of the M. trapezius	41
BURTON LOWELL BAKER. A study of the parathyroid glands of the normal and hypophysectomized monkey (<i>Macaca mulatta</i>). One text figure and two plates (fifteen figures)	47
W. U. GARDNER AND EDGAR ALLEN. Effects of hypophysectomy at mid-pregnancy in the mouse. Two charts and three plates (thirteen figures)....	75
MARGARET A. BLOOM, FRANKLIN C. MCLEAN AND WILLIAM BLOOM. Calcification and ossification. The formation of medullary bone in male and castrate pigeons under the influence of sex hormones. Four figures....	99
ROY ORVAL GREEP. Two hermaphroditic rats. Two plates (ten figures)	121
<i>Book Review.</i> ROBERTS RUGH. Introduction to vertebrate embryology. By Waldo Shumway	129
AMERICAN ASSOCIATION OF ANATOMISTS. Proceedings of the fifty-eighth session. Proceedings, officers and list of members.....	131

No. 2 JUNE, 1942

W. T. STAFFORD, R. F. COLLINS AND H. W. MOSSMAN. The thecal gland in the guinea pig ovary. Two plates (twelve figures)	193
M. W. BURRILL AND R. R. GREENE. Androgen production during pregnancy and lactation in the rat. One text figure and two plates (five figures)...	209
FREDERIC T. LEWIS. The introduction of biological stains: Employment of saffron by Vieussens and Leeuwenhoek	229
W. H. WHITEHEAD, W. F. WINDLE AND R. F. BECKER. Changes in lung structure during aspiration of amniotic fluid and during air-breathing at birth. Two text figures and one plate (four figures)	255
PETER GRUENWALD. Early human twins with peculiar relations to each other and the chorion. Two text figures and two plates (six figures)....	267
H. W. BEAMS AND R. L. KING. The origin of binucleate and large mononucleate cells in the liver of the rat. One text figure and two plates (twenty-three figures)	281
WILLIAM A. WIMSATT. Survival of spermatozoa in the female reproductive tract of the bat. One plate (five figures)	299
WALDO SHUMWAY. Stages in the normal development of <i>Rana pipiens</i> . II. Identification of the stages from sectioned material. Two plates (twenty-five figures)	309
HAROLD SPEERT. Bilateral hyperthelia in a guinea pig. One figure	317

No. 3 JULY, 1942

C. K. WEICHERT AND A. W. SCHURGAST. Variations in size of corpora lutea in the albino rat under normal and experimental conditions. One figure..	321
L. C. CONN, J. CALDER, J. W. MACGREGOR AND R. F. SHANER. Report of a case in which all pulmonary veins from both lungs drain into the superior vena cava. One figure	335

PHILIP L. WRIGHT. Delayed implantation in the long-tailed weasel (<i>Mustela frenata</i>), the short-tailed weasel (<i>Mustela cicognani</i>), and the marten (<i>Martes americana</i>). Two plates (twelve figures)	341
WINIFRED LANSING AND J. M. WOLFE. Changes in the fibrillar tissue of the anterior pituitary of the rat associated with advancing age. Two plates (twelve figures)	355
ALLAN L. GRAFFLIN AND E. M. K. GEILING. Observations upon the structure of the thyroid gland in whales. One text figure and three plates (nine figures)	367
N. GIBLIN AND A. ALLEY. A method of measuring bone growth in the skull. Five figures	381
G. GUSHUE-TAYLOR AND RALPH HAYWARD. A case of right duodenal hernia. Two text figures and one plate (two figures)	389
ERNEST D. GARDNER. Nerve terminals associated with the knee joint of the mouse. Three plates (fourteen figures)	401
ROLAND H. ALDEN. The periovarial sac in the albino rat. One text figure and one plate (one figure)	421
RICHARD L. WEBB AND PARKE H. SIMER. The relation of lymph vessels to omental milk spots. Five figures	437
ELEANOR CLARKE, SAMUEL ALBERT AND HANS SELYE. The influence of various steroids on the development of castration changes in the hypophysis of the rat	449
J. S. NICHOLAS. Experiments on developing rats. III. The induction of artificial pregnancy. One figure	457

No. 4 AUGUST, 1942

BERNARD G. SARNAT AND WALTER E. HOOK. Effects of hibernation on tooth development. Four text figures and one plate (six figures)	471
J. L. WIERDA. An analysis of the relative growth-rates within the incisor tooth of the rat. Two figures	495

EARL O. BUTCHER. The effect of location on the quality of the hair and skin in the white rat. One plate (five figures)	503
CHARLES K. WEICHERT. A case of parallel embryonic development in the rat and its bearing on the question of superfetation. One plate (five figures)	511
ERNEST LACHMAN. A comparison of the posterior boundaries of lungs and pleura as demonstrated on the cadaver and on the roentgenogram of the living. Eight figures	521
CARROLL A. PFEIFFER AND CHARLES W. HOOKER. Experiments on the source of ovarian androgen in the mouse. Two plates (twenty-two figures) ...	543
JOHN MACLEOD. An analysis in human semen of a staining method for differentiating live and dead spermatozoa	573
JAMES H. LEATHEM. Effect of testosterone propionate on spermatogenesis in hypophysectomized rats following the injection of gonadotropins. One plate (six figures)	579
ANNE HAYNES AND R. H. RIGDON. A statistical study of the number of white blood cells in the blood of the rabbit	587
<i>Book Review.</i> ARTHUR KIRSCHBAUM. The Rat in Laboratory Investigation. Edited by John Q. Griffith, Jr., and Edmond J. Farris	595
<i>Book Review.</i> L. B. AREY. The Retina. By S. L. Polyak	597
